

Made in WIXOM

A HISTORY OF T-BIRDS - LINCOLNS AND THE WIXOM ASSEMBLY PLANT

VTCI's 2003 International Convention featured a tour of the Wixom Final Assembly Plant, home of T-bird and Lincoln production from its beginnings in 1957 through its end in 2008. Now, over 20 years later,

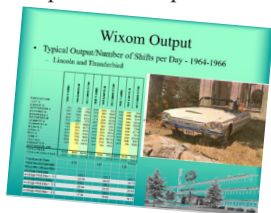

you can revisit Wixom, see the last generation of T-birds as they were being built and listen first-hand to stories told by the people who built the T-birds and Lincolns which defined an iconic era of American manufacturing and style.

MADE IN WIXOM chronicles the history of the Wixom/Novi Final Assembly Plant packed with photos and statistics covering the years when T-birds

and Lincolns were built side-by-side, with a question-and-answer panel discussion featuring people who worked the lines at Wixom back in the day.
